

March 3, 2023

Dear church family,

Good news! The CDC data state that we've gone back to "Medium" Community Level of spread ([www.cdc.gov](http://www.cdc.gov)) for COVID19.

The church continues to be open for worship, meetings and activities. The CDC advises: People may choose to mask at any time. If you are at high risk of getting very sick, wear a high-quality mask or respirator (e.g., N95) when indoors in public. People with symptoms, a positive test, or exposure to someone with COVID-19 should wear a mask.

Because there are people in our congregation whose health or family circumstances make it necessary to wear a mask, you may see some people in worship wearing a mask. Choir members have made a commitment to continue to wear masks.

We continue to live stream on Facebook, Zoom and YouTube.

I am grateful we are partnered in ministry together.

See you Sunday!

Pastor Felipe
